ACCOUNT SNAPSHOT

I was able to create a new account without choosing the *account operating* mode, please make the **Operating Mode** during new account creation **compulsory**.

After saving the record, once the account is created, return/show to the user the **account ID** created.

OK

In the search (**products search**) during account creation, only show '*deposit products*', see below example.

After clicking on the **cancel** button to abandon account creation (and re-start the process again), please *refresh the page* so as to clear the previous data that had been entered.
